Iniziativa 2		
Data di svolgimento dell'iniziativa	07/06/2012 - 31/12/2013	
Titolo dell'iniziativa	FUB Entrepreneurship Evening	
Categoria/e di attività di public engagement	- organizzazione di eventi pubblici (ad es. Notte dei Ricercatori, open day)	
Breve descrizione	The FUB Entrepreneurship Evening is a yearly event, organized for the first time in 2012, to stimulate the the foundation of new IT companies. Each event has three components: concepts for novel IT businesses presented by students of the university, presentations by successful start-up companies, and information about support for startups by incubators and funding institutions.	
Budget complessivo utilizzato	500	
(di cui) Finanziamenti esterni		
Impatto stimato	The events have drawn the attention of the general public to the range of activities at the university to stimulate start-ups and has created links between student initiatives for start-ups and the support institutions in the region, in particular, TIS in Bolzano and TrentoRise in Trento.

Iniziativa 3		
Data di svolgimento dell'iniziativa	06/06/2013 - 06/06/2013	
Titolo dell'iniziativa	Computer Science Research Meets Business. Cloud Computing - Hype or Promise?	
Categoria/e di attività di public engagement	- organizzazione di eventi pubblici (ad es. Notte dei Ricercatori, open day)	

Breve descrizione	This workshop started a series of events organized by the faculty in collaboration with the employers' association (Unternehmergeverband/Assoimprenditori) of South Tyrol. Each event focuses on a topic of information technology that is of current interest. The workshops feature presentations by international academic speakers, researchers from the faculty and practitioners from industry and aims at a mixed audience from the regional IT industry and academia.
Budget complessivo utilizzato	2000
(di cui) Finanziamenti esterni	
Impatto stimato	The workshop was well-attended both by professionals and by students. It has been followed by two more workshops in February 2014 on Data Warehousing and in October 2014 on Development of Mobile Applications. The workshop series has proven instrumental in deepening the collaboration between IT companies and university, which now includes also regular excursions with students to companies, presentations by practitioners in lectures, and collaborations in projects.
